

Butterfly Knife

EMA

You were the goth in high school*
You cut and fucked your arms up
 You always talked about it
They thought you'd never do it
 You had two pet rabbits
 Named Mickey and Mallory
 I been inside your bedroom
 I got the same scars you see
You were the goth in high school
You cut and fucked your arms up
 You always talked about it
They thought you'd never do it
 But I knew I knew I knew
 I knew someday ...
 Night
Colors red beneath moonlight
 C'mon look me in the eye
20 kisses with a butterfly knife
 Child
Take the hair and turn it white
 Kids beget kids tonight
 We'll never tell
 We'll never fight
 Shy
Only God can make it right
 In the desert underneath
 the light it's
20 kisses with a butterfly knife
Take the hair and turn it white
Take the hair and turn it white
 In the desert underneath
 the light
20 kisses with a butterfly knife
