

Follow the Step

Rachel Row

Waiting, longing for your touch

I need love

Silently come against me

Stand still for awhile

Then reach for me

Just follow the step

That leads you to my love

Just follow the step

Until you find my love

Just follow the step to my love

Come on and just follow the step

Softly whispers make my skin feel weak

Floating motion - it shivers in me

Caress me, conquer my heart

Inspire it with your love

Promise youâ€™ll never stop

Just follow the step

That leads you to my love

Just follow the step

Until you find my love

Just follow the step to my love

Come on and just follow the step

Follow, you just follow the step

Softly whispers make my skin feel weak

Floating motion shivers in me

Caress me, conquer my heart

Inspire it with your love
