## Wonderland

## Ke\$ha

I was a just a young kid with time to waste Living out of my car, those were the days We were all the wild ones, the wasted youth Other than a dream, had nothing to lose

Ainâ€<sup>TM</sup>t it funny how time flies? Fades into gold Now I wanna do a drive-by but I canâ€<sup>TM</sup>t find the road

> Back to wonderland Where it all began Everything was so simple then Living life like our last weekend Wish I could find my way Back to wonderland

Carrieâ€<sup>TM</sup>s in the valley, sheâ€<sup>TM</sup>s got a kid Julieâ€<sup>TM</sup>s still a waitress living on tips Sometimes we get together and shoot the shit But itâ€<sup>TM</sup>s not the same now, no, nothing is

Feels like it was a movie that plays in my mind Shadows of a past life, wish I could rewind

> Back to wonderland Where it all began Everything was so simple then Living life like our last weekend Wish I could find my way Back to wonderland

Didnâ€<sup>TM</sup>t have a clue what we were doing or where we would end up Living off of nickels and dimes and our young reckless love We didnâ€<sup>TM</sup>t ever think that time would ever come to an end Now if I could, you know Iâ€<sup>TM</sup>d run

> Back to wonderland Where it all began Everything was so simple then Living life like our last weekend Wish I could find my way

## Back to wonderland
