Come Back to Me

Razed in Black

My memories told me
In a dream once
That you've spent a quiet night in our past
A past still bleeding with questions
The answers too often ignored
My torture.I let the stars
Witness the honesty
I am true to the lie
That I'll never be ?
I'll take a breath
To breathe you into me
I won't ever let it go
??til you come back to meI lied when you asked me what I wanted
A fateful blow to my own heart
I didn't know
A tap on the shoulder just a shadow
Delusions far too much to bear upon youI let the stars
Witness the honesty
I am true to the lie
That I'll never be ?
I'll take a breath
To breathe you into me
I won't ever let it go
??til you come back to me
