Break Me

Entwine

You rape me with your lies
You hurt me deep inside
Some might say I'm not the fortunate one
You love too break me down
But I'll stay too hear you out
Some might say that I'm the fallen oneLead me out from the dark
and kill my painBring it on
Tear me down
May the world go round and round
At the end of desire
your world falls down and dies
Bring it onHow could you let me down
And blame me for what you've done
After all I think you're the fallen oneFleeting touch in the dark
Cause my painBring it on
Tear me down
May the world go round and round
At the end of desire
your world falls down and dies
Bring it on
Bring it on
I gotta sell my SoulYou reap me with your lies
It hurt's me deep inside
Some might say I'm not the fortunate one
You love too bring me down
But I'll stay too hear you out
Some might say that I'm the fallen oneFree me now
Crawling on my soulBring it on
Tear me down
May the world go round and round
At the end of desire
your world falls down and dies
Bring it on
Bring it on
May the world go round and round (and round)
The world go round and round (and round)
The world go round and round (and round)
The world go round and round
