

Peanuts

Herb Alpert and the Tijuana Brass

It's all a game
You're not the same
Your famous name
The price of fame Oh no
Try to liberate me
I said oh no
Stay and irritate me
I said oh no
Try to elevate me
I said oh no
Just the fallen hero Don't wanna hear about the drugs you're taking
Don't wanna read about the love you're making
Don't wanna hear about the life you're faking
Don't wanna read about the muck they're raking You sang your song
For much too long
There something wrong
Your Brain is gone Oh no
Try to liberate me
I said oh no
Stay and irritate me
I said oh no
Try to elevate me
I said oh no
Just the fallen hero Don't wanna hear about the drugs you're taking
Don't wanna read about the love you're making
Don't wanna hear about the life you're faking
Don't wanna read about the muck they're raking It's all a game
You're not the same
Your famous name
The price of fame Oh no
Try to liberate me
I said oh no
Stay and irritate me
I said oh no
Try to elevate me
I said oh no
Just the fallen hero Oh, you're just the fallen hero Don't wanna hear about the drugs you're taking
Don't wanna read about the love you're making
Don't wanna hear about the life you're faking

Don't wanna read about the muck they're raking
Don't wanna find about the drugs you're taking
Don't wanna read about the love you're making
Don't wanna hear about the life you're faking
Don't wanna read about the muck they're raking
Don't wanna find out what you've been taking
Don't wanna read about the love you're making
Don't wanna hear about the life you're faking
Don't wanna read about the muck they're raking
Don't wanna find out what you've been taking
Don't wanna read about the love you're making
Don't wanna hear about the life you're faking
Don't wanna read about the muck
Peanuts, peanuts peanuts
