## Status Quo

I don't need you mama  
I just need your love  
I'm here for loving so take it  
While I'm good enough  
I just need your  
LoveSeems I've waited longer than I've ever done  
My mind is getting evil and my body's numb  
Woman can I come?  
Woman can I come to you?  
'Cos I need your love  
Yes I need your loveI don't need you mama  
I just need your love  
I'm here for loving so take it  
While I'm good enough  
I just need your  
LoveSeems I've waited longer than I've ever done  
My mind is getting evil and my body's numb  
Woman can I come?  
Woman can I come to you?  
'Cos I need your love  
Yes I need your love
