Wonderful Thing

Garrison Starr

I hate love, I really do
It never works out quite
The way I want it toThe trap gets set
Dont they know
The walls go up
And then drama begins
Its all part of the showIt's a wonderful thing
When its happening
It's a wonderful thing
When its happeningI hate love, I tell you the truth
Ill be the first one there
To open up the way
That Im supposed toBut it's an empty room
Im all by myself
The other part of the equation
Comes and goes, and never takes a stepIt's a wonderful thing
When it's happening
It's a wonderful thing
When it's happeningThis is how it goes
Were lonely, hollow souls
Without love
Without love we might as well give upI hate love, I really do
But there's something to be said
For all the joy that came with youIt's a wonderful thing
