

(i Believe) Our Time Is Gonna Come

Reo Speedwagon

You touched me, you took me away
You left me confused when you said, "You couldn't stay"
But now I know what you were tryin' to say
I can understand that I'm not the only one
But I believe our time is gonna come
I dream of you through every night
But you're not risin' with me, so I don't wanna see the light
Even if you can't come over and I hopin' that you might
'Cause when you're not here nothing's any fun
But I believe our time is gonna come
I believe our time is gonna come
I believe our time is gonna come
I believe our time is gonna come
Oh, you touched me wherever you took me away
You left me confused when you said, "You couldn't stay"
But now I know what you were tryin' to say
I can understand that I'm not the only one
But I believe our time is gonna come
I believe our time is gonna come
I believe our time is gonna come
I believe our time is gonna come
I believe our time is gonna come
I believe our time is gonna come
(Oh, our time is gonna come)
I believe, I believe
I believe our time is gonna come
I believe, I believe
I believe our time is gonna come
I believe, I believe
I believe our time is gonna come
I believe, I believe
I believe our time is gonna come
I believe, I believe
I believe our time is gonna come
I believe, I believe
