

# 27 Hours

## Banks

[Verse 1]

Always told you not to love me  
Now look what you made me do  
I got poison in my pocket  
Told you I was bad news  
My demeanor made you wait  
But the consequences stayed  
I killed everything we were[Refrain]

Baby, murder was a case  
Baby, murder was a case  
Baby, murder was a case

[Verse 2]

So you like the fear of falling  
But you stand there looking dumb  
Why'd you come here in the first place?  
Baby, I am not the one

How can you not walk away after everything I've done?[Chorus]

It's been 27 hours since we even saw the sun  
Since we even saw the sun  
Since we even saw the sun[Bridge]  
Tears you cry rely on my disdain  
While we waited, days that never came  
Time just flies, but I still carry on
