Your Girl

Blue States

I should be your girlSee, I used to be so shy
Sit at home and fantasize
(I should be your girl)
But I ain't wastin' no more time
'Cause I've got to make you mineI'm gonna make you want to
Get with me tonight
I'm gonna put those naughty
Thoughts into your mindI'm gonna show you clearly
I can rock your world
You're gonna know for sure
That I should be your girlSee, I used to be afraid
But now baby, I can't wait
(I should be your girl)
I just gotta have your love
And enough's, enough's enoughI'm gonna make you want to
Get with me tonight
I'm gonna put those naughty
Thoughts into your mindI'm gonna show you clearly
I can rock your world
You're gonna know for sure
That I should be your girl, your girl, your girlI should be your girl
I should be your girl, your girl, your girlYour girl, your girl
I should be your girlI'm gonna make you want to
Get with me tonight
I'm gonna put those naughty
Thoughts into your mindI'm gonna show you clearly
I can rock your world
You're gonna know for sure
That I should be your girl
