

# Astronauts

## RockFour

You float like a baby  
Trying to escape this covered in tar  
But every recording

You keep distorting like an astronaut  
It's funny old world full of headaches in turn  
So whenever you need space  
I guess it's okay

When you're floating away  
To feel nothing at all  
We can be astronauts

If you want to get out of here  
You float like a baby  
Looking for safety somewhere on mars  
But if I'm mistaken

Your body's in England but your head's in the stars  
It's funny old world full of headaches in turn  
So whenever you need space  
I guess it's okay

When you're floating away  
To feel nothing at all  
We can be astronauts

If you want to get out of here  
We can get out of here  
We can get out of here  
We can be astronauts

We can be astronauts  
It's funny old world full of headaches in turn  
So whenever you need space  
I guess it's okay  
(Ay, ay, ay)

When you're floating away  
(Ay, ay, ay)  
To feel nothing at all  
We can be astronauts

If you want to get out of here  
We can get out of here  
We can get out of here  
We can be astronauts  
We can be astronauts
