

Might Get Blessed

[Nicki Bluhm and The Gramblers](#)

I'm only happy when the sun goes down
I only want you when you're not around
 I only beg for you when I get low
 and this push and pull won't last for long
And give it to me nowShe said there's no smoke without a fire
 I'm getting tired of all these dirty liars
 A clear man is good but they're not the best
 If I hold my breath I might get blessed
And give it to me now.And if you want I can slap your wrist'
 And if you're good you will follow your instinct
 A dog that backs don't usually bite
You can take your chance and hope that you're right
 And give it to me now.
