

# Free The Wind

## The Flatlanders

You move the wind, you move the water  
You move the wild in all that's free  
You move the child, you move the mountain  
You move the song inside of me

[Chorus]

The mountain stands against the water  
The ocean breaks against the shore  
Ten thousand years times ten thousand  
The prideful mountain stands no more

From wanting happiness for others  
Comes all the joy the world contains  
From wanting pleasure for yourself  
Comes only sorrow, only pain

[Chorus]

You free the wind, you free the water  
You free the wild in all you see  
You free the child, you free the mountain  
You free the song inside of me  
Free the wind
