Aquaman

Walk the Moon

Real life love, is under the mirror of the surface so cut my cord, I wanna know how deep we can take it see the thing you've been chasin honey, you'll never find it wearin' a life vest you gotta risk your neck, but know in your heart it will be worth itSo here we go, head first with no regrets and no rules, we can stay as long as we want

slow dancin' in the darkness

all i know is i wanna be here with you from now onit's been my fashion, to keep my head dry and keep my feet wet

step by step I'm letting you lead me towards the deep end
well I learned my lesson honey, just when you think you're all adult swim
it's precisely when, when somebody shows you to the oceanSo here we go, head first with no regrets
and no rules, we can stay as long as we want

slow dancin' in the darkness

all I know is I wanna be here with you from now onjust keep holdin on, holdin on to me under, under the troubled surface of the sea just keep, keep holdin on, holdin on to me

just keep holdin on, holdin on to me, oh here we gohead first, with no regrets and no rules, we can stay as long as we want

slow dancin' in the darkness

and all I know is I wanna be here with you from now onhead first, into the water and so it hits me, I guess we could breathe all along one breath, after another and all i know is i wanna be here with you from now on (x3)
