All the Nasties

Elton John

If it came to pass that they should ask What could I tell them Would they criticize behind my back Maybe I should let them Oh if only then and only then They would understand They'd turn a full-blooded city boy Into a full-blooded city manIf they could face it I could take it in their eyes Oh I know I'd make it Their tiny minds And sacred cows, just fake it Oh if only then and only then They would understand They'd turn a full-blooded city boy Into a full-blooded city manBut I know the way they want me In the way they publicize If they could turn their focus off To the image in their eyes Maybe it would help them, help them understand Maybe it would help them, help them understand Maybe it would help them, help them understand That a full-blooded city boy Is now a full-blooded city manOh my soul Oh my soul Oh my soulOh my soul

Oh my soul

Oh my soul Oh my soul Oh my soul Oh my soul Oh my soul
