Ultragigantor

Red Line Chemistry

I used to be somebody who could control myself
but I can't anymore
I used to have a grip on reality
but I keep on slipping down
Now I'm under pressure
Deny the limitation
I am my own worst enemy
it kills me every time.
Big machine, take it for a ride
get inside and grow this crushing sound
Deny the limitation
Deny the limitation
It's all a part of the animal in myself
And I just don't care anymore
I let it take the shape of duality
And I feel I'm breaking out
Now I'm under pressure
Deny the limitation
I am my own worst enemy it kills me every time
Big machine
I'll take it for a ride
Get inside and grow this crushing sound

Big machine
I'll take it for a ride
Get inside and grow this crushing sound
Deny the limitation
Deny the limitation
It?s all a part of the animal in myself
It?s all a part of the animal in me
Now I'm under pressure
Deny the limitation
I am my own worst enemy it kills me every time
Big machine
I'll take it for a ride
Get inside and grow this crushing sound
Big machine
I'll take it for a ride
Get inside and grow this crushing sound

Deny the limitation
Deny the limitation
I use to be somebody who could control myself
But I can't anymore
I used to have a grip on reality
But I keep on slipping down
