

# I'm A Window

Matthew Good

I'm a window, you're the frame  
I'm a gigolo, you're in pain  
I'm the highlights, you're the game  
If I'm a window, you're just the rain Everybody get off the floor tonight, alright  
Everybody get off the floor tonight, alright  
Everybody get off the floor tonight Screw the whistle, come be the train  
Don't fuck the princess, do the maid  
Don't make nothing, just go get paid  
If I'm a window, you're just the rain Everybody get off the floor tonight, alright  
Everybody get off the floor tonight, alright  
Everybody get off the floor tonight, alright  
Everybody get off the floor tonight Diving in and out of trash  
Something down there's gotta match  
Gone away, boys  
We're gone away, boys The waitress she just brings us drinks  
And tries to guess what we all think  
But it's just noise  
Always it's just noise And through this side door in the lane  
Somebody's sick but love's to blame  
Gone away, boys  
We're gone away, boys I'm a window  
Come be some wind  
I'm a window  
Come break in  
Come break in  
Come break in
