Hole in Time

Sam Phillips

The first time he saw her
Was through a telescope
A misfit cactus
Filled with bottled hopeHe answered like a sick man
Getting out of bed
Suspicion and thirst
Curiosity and dreadThe blindness in control
Freeze the fatal bullet
As we're falling
Through a hole in timeOne night he came home
And found the house burning
Through the frozen smoke
He saw the earth turningA curtain of silence
Fell on deaf ears
Those dream from the past
Was echoing through the yearsThe blindness in control
Freeze the fatal bullet
As we're falling
Through a hole in time
