Eternal Agony

Jungle Rot

Death, Farther the pain
Pools of Gore, Lumps of BrainBleeding - From the neck
Blood - Hate and anger
Say - Your last farewellRip at your chest, Pull out your tongue
Tear off your limbs, Rip a bloody lungTime is for dying, No time to repent
Sould will not return, Carcass to formentWorld turns to dark
Taking your last breath
There's nothing left
There's nothing leftReturn to the earth
A fossil in clay
Perished into byond
Eternal agonyWorld turns to dark
Taking your last breath
There's nothing left
Eternal agony
