

# Land of Love

[Marcia Griffiths](#)

Come let us go to the land of love  
Where the love light shine so bright above  
We will be so happy and free  
All your pains will let you be  
You're gonna find that love is real  
By the feeling you feel

In that land where the people are free  
Life will be better for you and me  
We won't find true happiness appear  
Come with me and have no fear  
We're gonna find that love is real  
By the feeling you feel

We will be so happy and free  
All your pains will let you be  
You're gonna find that love is real  
By the feeling you feel

In that land where the people are free  
Life will be better for you and me  
We won't find true happiness appear  
Come with me and have no fear  
We're gonna find that love is real  
By the feeling you feel

Come let us go to the land of love  
Where the love light shine so bright above  
We will be so happy and free  
All your pains will let you be  
You gonna find that love is real  
By the feeling you feel
