Blame

Complete Control

I heard there's a place
Where men traded worlds
And the debts were paid off
With our lives
And the eyes of the innocent went blind
When the concrete mountains fell from the skyIf you let freedom ring, will they hear it
If you let freedom ring, will they care
If you let freedom ring, will they accept it
If you let freedom ring, will they dare
We're to blame
We're to... blame
When freedom rings are we deaf and dumbWith arrogance we act surprised
We police the world
And we cheat out the deprived
A deserved tragedy
That we had coming
And the price you'll pay
For your leaders lies
