This Time

Stealing Sheep

This time, passes over time
This time, it's all over mine
All my fears were hidden in a misty field
Now the autumn leaves, they pass me byWhy don't you leave me now, before the dayThis time, it's a losing mile
This time, shadows over mine
Anybody can see it's up to me
Now two hundred dreams
just reflected in a windy streamWhy not come with me now, before the dayO', sleeping through the day
Nothing left to say
Another rainy day
O', is this the way it is
Nothing left but this
Watch us pass the timeThis time, it's a losing mile (it's a losing mile)
This time, shadows over mine (shadows over mine)Maybe there's reasons why these things have gone
Thousands of meanings dried out in the sun
Maybe there's two, although there should be one
All we'll know when time has goneWhy does it always have to be this way
Or will it always happen anyway
Why does it always have to be this way
Or will it always happen anywayThis time, it's a losing mile (it's a losing mile)
This time, shadows over mine (shadows over mine)
Anybody can see it's up to me
