

The Bones of Baby Dolls

Acid Bath

Flower girls play lover
Grave games in the courtyard
I heard her
Screaming like a radio
Mary Lou left marks on you
She just screams at the walls
The kite string pops I'm swallowed whole by the sky
We smoke the bones of baby dolls
Techno liquid screaming meat
Heavens cold beneath my feet
Cyber love the anti-man
We make love because we can
Virgins play whore the bayous blue
Barefoot (and bloody) eatin' mushroom stew
Work = pay, pay = freedom
Fuck them all cause we don't need 'em
Everything's gone dry
Like bottle glass scraping cross the pavement
