

# Everything Ends (Live At Download Festival 2009)

## Slipknot

You are wrong, fucked, and overrated  
I think I'm gonna be sick and it's your fault  
This is the end of everything  
You are the end of everything  
I haven't slept since I woke up  
And found my whole life was a lie, motherfucker  
This is the end of everything  
You are the end of everything Shallow skin, I can paint with pain  
I mark the trails on my arms with your disdain  
Everyday it's the same I love, you hate  
But I guess I don't care any more  
Fix my problems with the blade  
While my eyes turn from blue to gray  
God, the worst thing happened to me today  
But I guess I don't care anymore You are wrong, fucked, and overrated  
I think I'm gonna be sick and it's your fault  
This is the end of everything  
You are the end of everything  
I haven't slept since I woke up  
And found my whole life was a lie, motherfucker  
This is the end of everything  
You are the end of everything My flaws are the only thing left that's pure  
Can't really live, can't really endure  
Everything I see reminds me of her  
God I wish I didn't care anymore  
The more I touch, the less I feel  
I'm lying to myself that it's not real  
Why is everybody making such a big fucking deal?  
Is never gonna cure anymore You are wrong, fucked, and overrated  
I think I'm gonna be sick and it's your fault  
This is the end of everything  
You are the end of everything  
I haven't slept since I woke up  
And found my whole life was a lie, motherfucker  
This is the end of everything  
You are the end of everything You are wrong, fucked, and overrated  
I think I'm gonna be sick and it's your fault  
This is the end of everything  
You are the end of everything

I haven't slept since I woke up  
And found my whole life was a lie, motherfucker  
This is the end of everything  
You are the end of everything What the hell am I doing?  
Is there anyone left in my life?  
What the fuck was I thinking?  
Anybody want to tell me I'm fine?  
Where the hell am I going?  
Do I even need a reason to hide?  
I am only betrayed  
I am only conditioned to die You are wrong, fucked, and overrated  
I think I'm gonna be sick and it's your fault  
This is the end of everything  
You are the end of everything  
I haven't slept since I woke up  
And found my whole life was a lie, motherfucker  
This is the end of everything  
You are the end of everything You are wrong and overrated  
I think I'm gonna be sick and it's your fault  
This is the end of everything  
You are the end of everything  
I haven't slept since I woke up  
And found my whole life was a lie  
This is the end of everything  
You are the end of everything  
You are the end of everything
