So Thankful

2edge

Cool nights, hot days, see hear touch feel & taste
To give, to take, to mend that which i break
These things i am so thankful that i have

Opening of my eye
Made me realise, that life ain't so bad after all

I'm on the drug that i like to call life
Almost stopped breathing but I've come back to life
Suddenly I'm weightless and I'm staring at the sun
and all of the knots one by one come undone
I'm on the drug that i like to call life
Almost stopped breathing but I've come back to life

That I wake up every single day
The people the I know,
the people that helped me grow
These arms, these legs
that you and me aren't dead

Opening of my eye
Made me realise, that life ain't so bad after all

I'm on the drug that i like to call life
Almost stopped breathing but I've come back to life
Suddenly I'm weightless and I'm staring at the sun
and all of the knots one by one come undone
I'm on the drug that i like to call life
Almost stopped breathing but I've come back to life

And i feel the same things you feel
And i feel the same things you feel

Suddenly I'm weightless and I'm staring at the sun
and all of the knots one by one come undone
I'm on the drug that i like to call life
Almost stopped breathing but I've come back to life

I'm on the drug that i like to call life

Almost stopped breathing but I've come back to life

I'm on the drug that i like to call life
Almost stopped breathing but I've come back to life
