

Penguin Island

Pebaluna

If you want to get away to my island
lets just build a bitchin boat and wed be stylin
(stylin, to my island)

Thered be lots of penguins cuz I always wanted one
you could get whatever you want! As long as it dont eat penguins
(ohs)

Come with me, well sail the sea just drifting till we hit dry land
If it storms and you get scared well dont you worry- hold my hand
Sittin in the shade eatin mangos, drinkin coconuts-
We could have a dance party with only the two of us!
(dance party, just you and me)

We could train the animals like Swiss Family Robinson
The parrot- she could open beers and monkey could carry em
(um. Please get me one?)

Come with me, well sail the sea just drifting till we hit dry land
If it storms and you get scared well dont you worry- hold my hand
And well be stylin
to my island
Well have a dance party
just you and me
on Penguin Island
