Angels and Acid

Infernal Majesty

Splintering bone in the warmth of the sun firethorn and rose snag the flesh that i've hung
Tools of the trade fermenting and acid course threw black veins she was so attractive
After the frost I pick till I'm full a blanket of death warms my soul
Inflections of angels ring in my ear and the goat's crooked smile leads on meDead die dead die dead die dead die dead dieDead bodies eve's wide open dead bodies bloody and bloated
Dead bodies in my dreams dead bodies are all I see
God forgive me for my sins satanic academia the demon within
Axe in hand by my grim account choking on blood creeping about
Fracture the realm of my cloven hove god burnt wings of fairy's barking in song
Hacking them down stripping ribbons of flesh edge of my blade stuck into bone
Hungry for love
Fracture the realm of my cloven hove god burnt wings of fairy's barking in song
Hacking them down stripping ribbons of flesh edge of my blade stuck into bone
Hungry for your love
Gormandized beneath the pines, gorge upon intoxicate venebrate your pale skin
Strange and hidden
Under the veil a shadow appears in the morning haze liquefy your pale skin
Hungry for the syringe
You are but one of many my dear for your blood to
Bubble and boil into the sick with rust and mold
My powers shall unfold wrapped in narcotic induced delusions
Of grandeur snacking milking the essence of life which is
Time and yours is overSpattering blood dripping down your face
Like tears in rain as I slay
