

Big Bang

Poom

The big, the bang, the big, the bang
The Big... Bang!Doo pee doo pee dooYou know it, we know it,
We're about to make it
We'll do it, they'll see it,
Boy, they won't regret it
It's crazy, it's coming, hey!
Let's shut it down, okay!
1, 2, 3, 4, ready to go!
We'll blow your mind
We'll free the demon living insideThe big, the bang, the big, the bang
The Big... Bang!Together, we're starting a revolution
Prepare yourself to daft
Going ain't gonna last forever
So Big Bang me!Doo pee doo pee doo.. ah!It's smoky, it's scary,
It's dark and gloomy
You're starving, you're longing,
Damn, you're missing something
It's hiding into your head!
Just let it out, okay!
1, 2, 3, 4, ready to go!
It's rough inside
The forces shinning out of your eyesThe big, the bang, the big, the bang
Big Bang me!Together, we're starting a revolution
Prepare yourself to daft
Going ain't gonna last forever
So Big Bang me!You've seen it, you've got it,
You won't forget it
I knew that we'd find it
Now, we share the secret
It's buried into your head!
Don't let it go away!
Everyday it hold on afraid
It burns inside
The light spreading out in the darkTogether, we're starting a revolution
Prepare yourself to daft
Going ain't gonna last forever
So Big Bang me!Big Bang me! Big Bang me!
