

# You Can Fall

## Broadcast

To those who hate  
Have cried for no one  
You can call, you can callTo those who talk  
And wish against me  
You can call, you can callLate in the evening  
When it gets dark  
You can callTo those who say  
They go unbeaten  
You can fall, you can fallTo those who say  
It's because they're weak  
You can fall, you can fallLate in the evening  
When it gets dark  
You can fall
