

Cricket On A Line

Colt Ford

I got a cricket on the line
And a bottle of shine
A whipper will wistlin
Everything is fine
I got my plow boy bunny sittin by my side
What else does a country boy need to survive

Let me hear ya say hey we want some country
Hey we want some country
Let me hear ya say hey we want some country
Hey we want some country

Hey Yall, its me again
Time to get it on with my country friends
Got girls, got trucks, got mud,
Yall know whats up
Do you wanna know what its like to sip some
Moonshine by the moon light
Well come on down, well show you around
Load up the truck, take you into town
Head to miss bettys lunch is ready
Stop by the house, get mom and daddy
Drop em off there at the walmart
Got to get to the lake before it gets dark
Load the boat in
Call my friends
Make the first left when the black top ends
Ease on back bout a mile or two
Then you can see just what were doin

I got a cricket on the line
And a bottle of shine
A whipper will wistlin
Everything is fine
I got my plow boy bunny sittin by my side
What else does a country boy need to survive

Let me hear ya say hey we want some country
Hey we want some country
Let me hear ya say hey we want some country

Hey we want some country

Yall have mercy

Here we are in the middle of field

Who needs a bar

This here is a country party

Yall get drunk and be somebody

I know you like my southern draw

Holla say yes mahm and yall

That's in my dna

Good god ol mighty is what i say

When I see those cursin boots

Flat bottomed girls and them daisy dukes

They sweeter then momma cobbler

Hold on a minute somethings pullin on my bobber

I think I got a bite

Heat the grease up fish fry tonight

So if you wanna see me and Rhett

Somewhere in the country is your best bet

I got a cricket on the line

And a bottle of shine

A whipper will wistlin

Everything is fine

I got my plow boy bunny sittin by my side

What else does a country boy need to survive

Let me hear ya say hey we want some country

Hey we want some country

Let me hear ya say hey we want some country

Hey we want some country

I got a cricket on the line

And a bottle of shine

A whipper will wistlin

Everything is fine

I got my plow boy bunny sittin by my side

What else does a country boy need to survive

Let me hear ya say hey we want some country

Hey we want some country

Let me hear ya say hey we want some country

Hey we want some country

I got a cricket on the line

And a bottle of shine
