Victorious

Fee

I'm on my own,on my own,in the middle in the middle of the universe
And noone's there to lend a hand,and im so so cold
I'm in the race,in the race,with nothing there's no way I'm about to lose this
Im the boss,yes gonna be first,I'll go journey that road
Chorus
There is only one life to win,one chance to win
One hill to climb,to prove that youre a champion
I'm gonna ride,no wind with the tide,does not horror,I will survive cause now
I'm on top of the world,aint no mountain I cant climb
Guess this is the final destination,im flying home victorious
I'm on top of the world,aint no mountain I cant climb
Guess this is the final destination,im flying home victorious
Im letting you know even if I fall down,I'mma get up off that get up off that
Im flying home victorious,the journey is hard sometimes I wanna give up
Imma get up off that get up off that,im flying home victorious

Ohhh im on top of the world
Im almost there,almost there
The finishing line is just a mile away
Im tired out,thirsty now,still moving on
Ive come so far,come so far,like a pyramid im way too up to go back down
I hold my faith,make no mistake,im gon get that goal

I'm on top of the world,aint no mountain I cant climb
Guess this is the final destination,im flying home victorious
I'm on top of the world,aint no mountain I cant climb
Guess this is the final destination,im flying home victorious
Bridge
Im flying home victorious,flyin victorious
I made it through against all odds
Chorus out
