The Horse

Beach Fossils

I coulda talked to you
But I puffed a wok with you
I drop from the skywriters
You say goodbye
Forever my fart in our dreams

I lost my hardcore you
And I said "it's free for two"
Stone-top left mangum, covering lies
That I never once knew a dick

The whores oh you
The whores with your head to this guy
Will you turn erect again
I'm a turd in my head
And my horse is no longer hard
