

Carry

Emmaus

Love, hold my hand
Help me see with the dawn
That those that have left
 Are not gone
 But they carry on
 As stars looking down
 As nature's sons
 And daughters of the heavens
You will not ever be forgotten by me
 In the procession of the mighty stars
Your name is sung and tattooed now on my heart
 Here I will carry, carry, carry you

 Forever
 You have touched my life
 So that now
Cathedrals of sound are singing, are singing
 The waves have come to walk with you
 To where you will live in the land of you,
 Land of you
 You will not ever be forgotten by me
 In the procession of the mighty stars
Your name is sung and tattooed now on my heart
 Here I will carry, carry, carry you
 Here I will carry, carry, carry you
