

# Let's Make a Pact

## Pretenders

Empty me  
Like a dustman rids a rubbish bin  
Fill me up with glimpses of you, let the music begin Oh oh oh  
Take me to the Altar  
Let's make a pact  
One we'll never take back  
Let me prove that I'm true  
Let's make a pact Alter me  
Change could only do me good  
Others have tried to and failed I wish that somebody could Oh oh oh  
Do what no one can do  
Let's make a pact  
One we'll never take back  
Let me prove that I'm true  
Let's make a pact, yeah Take me to the world and let me wonder at the view  
Set me off in motion and let me dance  
After twenty years of doubt and then a week with you  
I'm ready baby, follow through Cover me in dirt  
And leave me to the wind and the rain  
If I should ever hurt the one who made me human again Oh oh oh  
Take me to the Altar  
Let's make a pact  
One we'll never take back  
Let me prove that I'm true  
Let's make a pact Let me prove that I'm true  
Let's make a pact  
Let me prove that I'm true  
Let's make a pact
