

Sexify

Gang of Thieves

I take a fire to the promised land
Cuchi mama tell me where to stand
I got a meeting with a mother pullin undercover
Turn your lover in its time to be a man A feast for a beast I can specify
Tell me when you're free baby please don't lie
I'm on a mission for a birdie to be kissin
Lay me down to bed and help me come alive Just this time be my eyes
Place a bet on my desire
Hold me down To fuel my fire
Take my hand and sexify Keeper of the peace can ya help me please?
A funkafreakadelic mama to believe
I got a feelin that you're leavin so I'm stealin her
Turn your ass around and let me plant my seed Just this time be my eyes
Place a bet on my desire
Hold me down To fuel my fire
Take my hand and sexify War inside a paradise
Angelina baby I'm yours to tie
I know it's hard to be the face of a society
Masochism freak I wanna rail your ride Just this time be my eyes
Place a bet on my desire
Hold me down To fuel my fire
Take my hand and sexify Just this time be my eyes
Place a bet on my desire
Hold me down To fuel my fire
Take my hand and sexify
