Dormant Bodies Bursting

Cannibal Corpse

Bodies are bursting apart
Volcanic eruption of guts
Exploding cadavers bring forth
A bloodbath to torment all lifeThe sky and the earth are now tainted by blood
Death is to blame for this enormous flood
The bodies are bursting apart
Volcanic eruption of gutsDetonate, polluted, pandemic
Unburied decedents that no longer die
Dispelled amok amongst sickness
The dead and living are one
When dormant bodies are burstingThe sky and the earth are now tainted by blood
Death is to blame for this enormous flood
The bodies are bursting apart
Volcanic eruption of gutsInfernal, disaster, revulsion
Dormant bodies burstingBodies are bursting apart
Volcanic eruption of guts
Exploding cadavers bring forth
A bloodbath to torment all lifeThe sky and the earth are now tainted by blood
Death is to blame for this enormous flood
The bodies are bursting apart
Volcanic eruption of gutsDetonate, polluted, pandemic
