Sing My Way Back

Steffany Gretzinger

When we were young the road was easy
But time moves on and people change
If we're not falling, we're not flying
You can't have love without the painWhen I lose direction
When I can't see the stars
If we get disconnected
I'll sing my way back to Your heart
I'll sing my way back to Your armsThere's a garden in the ashes
There is beauty in the mess
If we embrace our imperfections
I know love will do the rest
When I lose direction
When I can't see the stars
If we get disconnected
I'll sing my way back to Your heart
I'll sing my way back to Your armsA million miles, a hundred lifetimes
I'd never find another You
I found a diamond in the desert
Another story wouldn't doWhen I lose direction
When I can't see the stars
If we get disconnected
I'll sing my way back to Your heart
I'll sing my way back to Your armsA million miles, a hundred lifetimes
I'd never find another You
I found a diamond in the desert
Another story wouldn't do
When I lose direction
When I can't see the stars
If we get disconnected
I'll sing my way back to Your heart
I'll sing my way back to Your arms
