Tooken Back

Jacki-O

Yo, yo, yo, aiyo you brought me on Jerry just to take you back
After that bullshit you put me through a couple months back
That wasn't right, call the cops on me, and told them I had it like
Yeah, pop the trunk, he got dope and guns
Check for warrants, that son of a bitch on the run, I know it
Three of his niggas got life, he use to roll with
And told 'em I bodied an upcoming basketball star
Once I heard that, I fell out the cop car, real hard
You bugged out, and thugged out, wanted me to take you back
That could never happen, I'm sorry
No disrespect, but you a psycho, honey
Got that S.S.I. money, and you start actin' funny
Shrimp's every night, ordering steaks
Them Jumbo joints, them shits cost a buck 50 for eight
And when you told me your Merlo, need more grapes
I said, "Honey, you never had wine before?"
And if you did, that's not how you act at all
And no, that's not how we rock in Theodore
Please, babe, I love you
(Take me back, I'll never do it again)
Always want you
(You know that you my lover and my best friend)
Yes, darling, it's true
(Come on, home, where you belong, let's get it on)
Please, babe, I want you
Take me back to them days, when the yay' was bein' frontin' to you
Hundred thousand dollar shopping sprees wasn't nothin' to you
When three was a crowd but I dealt with it
And your sex wasn't wild but I dealt with it
I always felt shitted, you should of take me back
The girl that introduced you to boy, and helped you open your stacks
I got you in south connects, for the hard grind
That's why I took mine off the top, for the hard time
You know you need me in the streets, to help you run things
And if you catch a case, you got it wrong, I'mma pawn rings
I'm your lady boo, that's what I'm suppose to do
I know when you was coppin' my coupe, that you was coppin' two
I know when you got me the red one, that she got the blue
But the way I chew on you, you should've got me two

Now you got me in the kitchen, with your fryin' on
Tellin' me that you gon' move with me, I know you lyin', dog
Who loves you baby? Nobody like Jackie-O
Cook, clean, break up your weed, and I give you nasty throat
What you actin' for? Get back in the door
Come on, home, where you belong, let's get it on
Please, babe, I love you
(Take me back, I'll never do it again)
Always want you
(You know that you my lover and my best friend)

Yes, darling, it's true
(Come on, home, where you belong, let's get it on)
Please, babe, I want you
Yo, you know I always love you, I never meant to hurt you
Even the stress'll work you, I miss your old perfume
Promise never curse you, I want you in my circle
Honey right by my side where I keep my herbals
We both agree on no more fighting, we'll just have a verbal
The man'll treat you like a queen, I will never bird you
Mother and father birthed you, if I have to hit you
Then damn, I might as well leave, 'cause I don't deserve you
Watch from you face, when you sleep, let the heat disturb you
Fiendin' from the magic wand, when she 'nique and serve you
Take me please, take me with ease
Take me back, goddamn it please, just scrape marks on my knees
'Member the first time you made my key
You was drunk, you went behind a tree and pee'd
I miss shit like that, and all of the times
We played cops, I'll arrest you in bed
Police brutality, I'll leave the side of your ass red
Goddamn it, is sex for real girl? Girl, we in special ed
Uh-huh, fuck that, take me back, pretty please, with you on top
Please, babe, I love you
(Take me back, I'll never do it again)
Always want you
(You know that you my lover and my best friend)
Yes, darling, it's true
(Come on, home, where you belong, let's get it on)
Please, babe, I want you
Yeah, yo this goes for everybody all across the world
(Please, babe, I love you)
Whether you got fired or your lover dropped you and all that
(Always want you)
You know what I'm sayin'? Everybody wanna get tooken back

You know what I mean? don't be afraid to ask, if you wanna see
(Yes, darling, it's true)
Yo, take me back, fuck it, everybody wanna get tooken back and shit
(Please, babe, I want you)
This is your man, Big Ghost, your host, signing off and shit
Theodore, I understand
(Yeah)
Take me back, take me back, take me back
Take me back, take me back, take me back
Take me back, take me back, take me back
Take me back, take me back, take me back
Take me back, take me back, take me back, yeah
Take me, take me
