

# Crazy but True

Cody Simpson

She gives me love, gives me  
Love like all the time  
She got a big heart a pretty smile  
A beautiful mind  
And when she walks in the room  
Man look how she shines  
Don't need no spotlight, no fancy design Yeah, yeah, that's my baby,  
That's, that's my baby  
Never wanna leave her you couldn't pay me and I, oh I  
I think I finally found a girl  
I want to rule my world It's crazy but true, it's crazy but true  
Can't see myself with nobody but you  
It's crazy but true, it's crazy but true  
She's got that kind of love that keeps me in a good mood I'm singing, I'm singing  
Yeah girl you got me singing, singing Yeah, always include her in all my plans  
She's right behind me like the pocket  
On the back of my pants  
She knows what I'm thinking before I get the chance  
To tell her so I got to thank her in advance Yeah, yeah, that's my baby  
That's, that's my baby  
Never wanna leave her you couldn't pay me and I, oh I  
I think I finally found a girl  
I want to rule my world It's crazy but true, it's crazy but true  
Can't see myself with nobody but you  
It's crazy but true, it's crazy but true  
She's got that kind of love that keeps me in a good mood It's crazy but true, it's crazy but true  
Can't see myself with nobody but you  
It's crazy but true, it's crazy but true  
She's got that kind of love that keeps me in a good mood I'm singing, I'm singing, I'm singing  
Yeah girl you got me singing, singing All my friends tellin' me that  
I should take my time, take my time  
Yeah, yeah, leave it up to me and I'll be with you  
Day and night, rain or shine Yeah, yeah, that's my baby  
That's, that's my baby  
Never wanna leave her you couldn't pay me and I, oh I  
I think I finally found a girl  
I want to rule my world It's crazy but true, it's crazy but true  
Can't see myself with nobody but you  
It's crazy but true, it's crazy but true

She's got that kind of love that keeps me in a good moodI'm singing

You got me singing, singing yea yea

Everybody everybody

You got me singing, singing yea yea

I think I finally found a girl

I want to rule my world

Yeah, yeah, that's my baby

That's, that's my baby
