

All She Wants Is

Duran Duran

All she wants is

All she wants is

All she wants is

All she wants is

All she wants is

All she wants is

Hey, spend your money on the corner, now

You know you've gotta save some for the shoeshine, boy

You've been pulling them by the hand inside

Oh, collecting all your toys

If you need a lead to heaven now

Just stick around, you're gonna be there

What do you care? What do you dare?

What does your heart say, now?

All she wants is

All she wants is

All she wants is

Divine intervention, couldn't keep

The word from leaking out

With your pleasure in suspension

Not to mention what you hang it around

If you need a lead to heaven, yeah

A place to share in every position

What do you care? What do you dare?

What does your heart say, now?

All she wants is

All she wants is

All she wants is

More, more, more, guess what?

Yeah, guess what?

All she wants is

All she wants is

All she wants is

All she wants is

All she wants is

All she wants is

All she wants is

All she wants is

All she wants is

All she wants is
All she wants is
All she wants is
...
