Metalians

Metalium

I will be triumphantThe journey completed
A vast expanse before me
The view reveals a chrome filled sea
We stand tall, we shan't fall
Aesthetic uniformity
Teeming with boundless energyThe time draws near
There is no fearThe final quest of the metalians
(The final quest)
This is the place I want to be
(This is the place)
Metalians quest at hand, crusader of our time
Fighting for eternityNow readied for battle
A juggernaut of pale blue steel
Can't guard against the disbelieve
World splitting swords raised high
A dance of pulsing laser light
We fear the one who don't believeOne unshared soul
May wound us allThe final quest of the metalians
(The final quest)
This is the place I want to be
(This is the place)
Metalians quest at hand, crusader of our time
Fighting for eternityThe final quest of the metalians
This is the place I want to be
Metalians quest at hand, crusader of our time
Fighting for eternityThe final quest of the metalians
(The final quest)
This is the place I want to be
(This is the place)
Metalians quest at hand, crusader of our time
Fighting for eternity
