## Metalium

I will be triumphantThe journey completed  
A vast expanse before me  
The view reveals a chrome filled sea  
We stand tall, we shan't fall  
Aesthetic uniformity  
Teeming with boundless energyThe time draws near  
There is no fearThe final quest of the metaliens  
(The final quest)  
This is the place I want to be  
(This is the place)  
Metaliens quest at hand, crusader of our time  
Fighting for eternityNow readied for battle  
A juggernaut of pale blue steel  
Can't guard against the disbelief  
World splitting swords raised high  
A dance of pulsing laser light  
We fear the one who don't believeOne unshared soul  
May wound us allThe final quest of the metaliens  
(The final quest)  
This is the place I want to be  
(This is the place)  
Metaliens quest at hand, crusader of our time  
Fighting for eternityThe final quest of the metaliens  
This is the place I want to be  
Metaliens quest at hand, crusader of our time  
Fighting for eternityThe final quest of the metaliens  
(The final quest)  
This is the place I want to be  
(This is the place)  
Metaliens quest at hand, crusader of our time  
Fighting for eternity
