

Save Me

Kierra Sheard

“I need you to save me.

Tantalizing thoughts in my head,
Words that keep bringing up what You said,
Your still small voice is the one I ignored once again, yeah
I made you a pawn in my game,
Knowing You™re one that I can™t replace,
bearing scars that you planned for me to escape, yeah

Change my life

This can™t take me over,
This can™t take me over, Lord, can you hear me?
This can™t take me over, this can™t take me over,
I know you hold me.
But I need you to save me, to save me,
To save me from this war,
save me, save me, save me from it all, save me from myself.

“This time, it™s not Satan. I am my own issue.
Can I get some witnesses out there where you™ve been your own issue?”

I™m wiping the tears from my face,
It feels like the floor has been pulled from me.
I tasted the apple and now I see what shouldn™t be, yeah.
How do I run from the poison?
It feels like sin™s latched onto me.
I™ve gotta get over this flesh that I™m under.
This just ain™t what I need, no.

Change my life

This can™t take me over,
This can™t take me over,
Lord, can you hear me?
This can™t take me over,
this can™t take me over,
I know you hold me.
But I need you to save me, to save me,
To save me from this war.

Save me, save me, save me from it all, save me from myself.

I know I've been disobedient,
And I know I didn't do what you told me to do,
But I need you to pull me and save me
From the mess that I've gotten myself into.
Yeah. I need you to pull me back in, to reel me back in.
I need you Jesus.
If I never needed you before,
it's NOW that I need you.
It's my flesh that's got a hold of me.
But I wanna walk by your Spirit, yeah.

(This can't take me over,
This can't take me over,
Lord, can you hear me?
This can't take me over, this can't take me over,
I know you hold me.
But I need you to save me, o save me, to save me from this war.
Save me, save me, save me from it all, save me from myself.)
