

# Communicate

BT

Communicate, communicate, communicate, communicate now

Communicate, communicate

Learn to use your words so we can Sat watching the screen

Will hope return?

I have to admit to myself

Have I not learned

I'm so full on for you

Speak to me

You're so full on for me

But I'll wait patiently You came and stole my heart

You came tore it apart

Now I'm stuck for words

Communicate

So now love learn to use your words so we can Communicate, communicate, communicate, communicate now

Communicate, communicate

Learn to use your words so we can Communicate, communicate, communicate, communicate now

Communicate, communicate

Learn to use your words so we can You came and stole my heart

You came tore it apart

Now I'm stuck for words

Communicate

So now love

Learn to use your words so we can Communicate, communicate, communicate, communicate now Communicate,  
communicate, communicate, communicate now

Communicate, communicate

Learn to use your words so we can Communicate, communicate, communicate, communicate now

Communicate, communicate

Learn to use your words so we can
