

Where The Boys At?

OMG Girlz

Babydoll:

Ha ha ha, OMG! Where you at boy?!

Beauty:

Holla back if you hear me (Hear me, Hear me)
I didn't come out to hang with just my girls tonight
Cus' lately I'm feeling lonely (Lonely, Lonely)
I need the perfect boy to rock my world that's right
Everybody need some somebody,
All the pretty girls wanna have some fun,
I ain't the only girl that wanna meet somebody
Everybody's tryna' find the perfect one,
And I'm a little picky,
Not just anybody
I'm not tryna' be greedy
Give me one and I'm done
If his swagg right
He can come get me
I will make it so he never forgets me

Tell me

Star:

Where the boys at
Where the boys at (Boys at)
Where the boys at
Where the boys at (Boys at)
If I holla boy
Holla right back (Right back)
Where the boys at
Where the boys at
Give me and my girls
Something to look at
Where the boys at
Where the boys at (Boys at)
Looking all around the city (City, City, City)
Looking for a fly young thing, to come my way tonight
Kick, step and we looking so pretty (Purday, Purday)
Turn on my pretty girl swag
And I got my girls right here with me (With me)

Beauty:

Everybody need some somebody

All the pretty girls wanna have some fun
I ain't the only girl that wanna meet somebody
Everybody's tryna' find the perfect one
And I'm a little picky
Not just anybody
I'm not tryna' be greedy

I will make it so he never forgets me

Tell me

Star:

Where the boys at (Boys at)
Where the boys at
Where the boys at (Boys at)

Where the boys at
Where the boys at
Give me and my girls
Something to look at
Where the boys at
Where the boys at (Boys at)

Babydoll:

Girl! Ain't no swag in that room AT ALL!

Definitely not what I'm looking for!

I I I, I'm looking for somebody

With a nearly perfect body

Pretty smile and some tats

Where you at? Where you at?

You can take me to a party

Dance with me,

Not anybody else

And be honest when I ask

Are you seeing anybody else? (For real)

Riding in the range

At the end of the car

More in love with the fact

His sneaker game out of par

I've been searching near and far

For someone whose so official

Who can let me wear a necklace

With his initials!

Star:

Where the boys at
Where the boys at (Boys at)
Where the boys at
Where the boys at (Boys at)
If I holla boy
Holla right back (Right back)
Where the boys at
Where the boys at
Give me and my girls
Something to look at (Look at)
Where the boys at
Where the boys at (Boys at)
Babydoll:
Ok
Ok
I'm still looking for you
