Where Would You Be?

Brian Free

V. 1
The morning front page headline reads disaster strikes once more. The writing on the wall is just too great to be ignored.
Floods and earthquakes everywhere violence plagues our land.
The last days are upon us Christ's coming is at hand.

C.
Where would you be if Jesus come back 5 minutes ago.
Would you still be here alone and lost without hope.
He will return as a thief in the night will you be taken or left behind.
Where would you be if Jesus come back 5 minutes ago.

V. 2
This lost and dying world must face the judgement seat one day.
They're hanging in the balance for this crime they must pay.
Refusing to accept God's grace how could they be so blind.
The sand is quickly pouring through the hour glass of time.

Bridge:
Mother nature, father time won't stop or change God's plan the prophesies have been fulfilled
He's coming back again.
