

Follow It

[Briana Marela](#)

You could get caught up in it
Feel the fall and see if it fits
Crushing like inhaling water
Swallowed it down at the bottom
If fame looks the other way, doesn't mean everything is lost
If you see another way, follow it wherever you are You could try your best at it
And never get noticed
Without putting in the hours
Show them that you really want it
If fame looks the other way, doesn't mean everything is lost
If you see another way, follow it wherever you are Look for the right way to follow
If fame looks the other way, doesn't mean everything is lost
If you see another way, follow it wherever you are
If fame looks the other way, doesn't mean everything is lost
If you see another way, follow it wherever you are
If you see another way, follow it wherever you are
