

# Under the Blue Red Sun

## Wyoming

come on let us go  
and leave this world behind  
I think we'll never know  
if there's a right place, right aim,  
right plan or time  
I think we'll never know  
so let us go now  
cause the end is not yet in sight

I think we'll never know we are waiting for the sun to arise in  
we are waiting for the sun to arise in  
we are waiting for the sun to arise in us  
it just seems to start again  
we start to go up in flames  
it just seems to start again  
come on let us go now  
cause the end is not yet in sight

I think we'll never know I think that we will never know  
that all we ever have controlled will shine  
it will shine  
and all the plans that were pursued are gone  
cause we will shine  
we will shine  
come on let us go  
and leave this world behind  
I think we'll never know  
if there's a right place, right aim,  
right plan or time

I think we'll never know I think that we will never know  
that all we ever have controlled will shine  
it will shine  
and all the plans that were pursued are gone  
cause we will shine, shine  
cry it out to the sky  
'til the end of time we will shine  
we will shine 'til the end of time
