## The Butterfly Effect

Soft pallet breaking  
Lost in aisles of white  
Corridors are shaking  
And I can see the lightsWaiting for something  
Waiting for someonePlease release me  
I can barely breathe  
I watch the ground beneath  
No more the want to beWaiting for something  
Waiting for someoneDon't fall, we could have had it all  
Another breath you're taking  
Slow rise, your love is suicide  
This heart is slowly breaking
